Professional Summary

Cybersecurity Engineering student (5th year, expected 2027) at ESI Sidi Bel Abbes. Combines offensive security, AI/ML research, and full-stack development. Team lead on RL-based attack-defence simulations. Active GDG & Alphabet club contributor.

Technical Skills

Cybersecurity	Kali, Metasploit, Burp Suite, Wireshark, Nmap, Suricata, Hydra, John, Hashcat
SIEM/Monitoring	Sysmon, Winlogbeat, Elasticsearch, Kibana, Telegraf, InfluxDB, Grafana
AI/ML	Python, BERT, UNET, EfficientNet-B3, OpenCV, Deep Q-Network, NLP
Frontend/Backend	React.js, Flutter, FastAPI, MySQL, MongoDB, Cassandra, Neo4j
DevOps/Tools	Docker, Kubernetes, Git, Jenkins, Ansible, GNS3, ZeroTier, LocalStack
Languages	Python, JavaScript, Dart, Java, C, Bash

Education

Cybersecurity Engineering	Expected 2027
Ecole Supérieure d'Informatique (ESI), Sidi Bel Abbes	
Baccalaureate in Sciences	Algeria
Average: 16.2/20	

Experience

Internship	Algérie Télécom
Network fundamentals, security, system administration, telecom infrastructure.	

Projects

Cyber-Arena	[Team Lead]
RL-based autonomous attack-defence simulation on enterprise topology (8 PCs, 5 VLANs, 2 Cisco routers). DQN agents with 80-dim state space, 18 actions. Live telemetry pipeline (SNMP → Telegraf → InfluxDB → Grafana). Ansible automates daily backups.	

Ransomware Simulation & Detection

Endpoint monitoring pipeline using Sysmon, Winlogbeat, Suricata, ELK stack. Real-time attack detection and visualisation.

Serverless Function Simulator

FastAPI + LocalStack FaaS runtime. Cold start: 350ms, warm pool: 0ms. p50 latency telemetry.

AI Projects: NLP & Image Segmentation

BERT semantic similarity (Kaggle AISM Challenge). UNET + EfficientNet-B3 for image segmentation.

Activities

Alphabit Club (2023-Present): Marketing, event coordination
GDG Club (2022-2023): Graphic design, DevFest 2022 organisation

Soft Skills

Leadership, Problem-solving, Creativity, Adaptability, Communication, Teamwork
